

Data Visualisation 2 Critique Session

Overview

The purpose of this assessment is for students to receive feedback on their Visualisation 2 assignment from other students and their tutor, and also to practice providing constructive feedback.

This assessment is worth 3% of the overall mark and must be completed during the lab session. The purpose of this assessment is for each student to receive valuable feedback to improve their visualisation. Therefore, this critique assessment cannot be taken after the due date of the visualisation assessment.

Procedure

1. The tutor creates breakout rooms, and randomly assigns two students to each breakout room.
2. Students join a room and share each other's visualisation.
3. Students prepare a critique for 10 minutes, using the rubric of the Visualisation 2 assignment.
4. Students join the main session.
5. Each student presents a three-minutes critique while the other student shares the screen.
6. Then three minutes discussion: the tutor provides feedback, other students comment.

Marking Rubric

1. **Presentation (0.5%)**: confident, clear, timely. 0% if over time.
2. **Critique and suggestions for improvement (2.5%)**: at least five valid suggestions for improving the visualisation choices, interactions, colour choices, layout, typography are required. Each suggestion is worth 0.5%.
